Admissions Officer
Red River College Polytechnic
319 Elgin Ave, Winnipeg, Manitoba R3A 0K4

Dear Admissions Office,

I am writing to request admission in the Game Development Program offered at Red River College Polytechnic. After researching the requirements to enrol in this program, I am confident I have the qualifications to be a great student and excel in the program.

As a high school student, I maintained an average of 92.5% in my final 2 years. I completed Coding in grade 11 with 95% and Computer Science in grade 12 with 100%. In addition, I graduated with 32 credits as an academic major and received Distinction Recognition awards for digital media and science. After looking at the program, specifically in the Who Should Enrol? section, I am confident that I meet the conditions and more.

Aside from my academic achievements, I am extremely passionate about developing games and I want to learn how to do it professionally. Furthering my education and learning new things is my top priority. My research tells me that enrolling at RRC Polytechnic is the best option for me to pursue my dream. I intend to be a proud student of RRC.

I am eager to bring my creative skills and enthusiasm to Red River College Polytechnic. My portfolio can be found on my github, which is attached to my resume. Thank you for taking the time to read my cover letter.

Sincerely,
Morgan Klassen
